FREADING
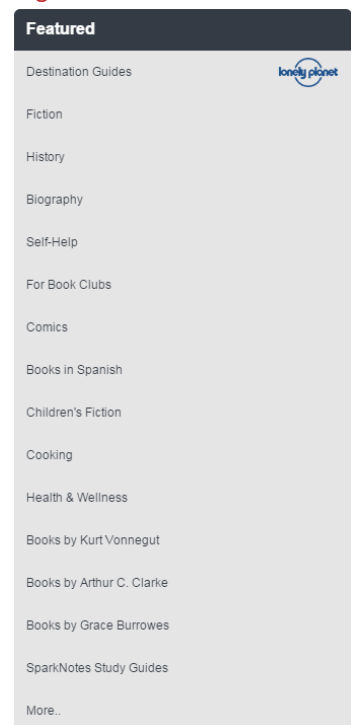

Managing Books:

Freading uses a token system: In the upper right corner, there is a counter which says how many books you have used, and how many are remaining. Example: 3/6 means the limit is 6 book loans per week, and you have used 3.

Unused book loans roll over each week for a four week period, a week being defined as a Monday to Sunday period of seven days, beginning at 12:01AM Monday, New York time, and going to midnight on Sunday. At the end of the fourth week from the time you first logged in, unused loans are cleaned out of your account, except for your original weekly allotment. The rolling over process then starts all over again, as a new four week cycle has begun.

The Adobe Digital Editions software will limit your access to each ebook for a 2-week initial period. You can extend the loan period for one 2-week period by going back to the book display on the app and hitting the download button again.

The Adobe Digital Editions software will allow you to transfer eBooks to multiple, but not unlimited, devices. If you are not using a computer, you can re-download a book within your loan period at no cost by going to "My Downloads" in the upper right corner on the home page. This will allow you to re-download an eBook at no download cost up to two times.

Details:

- The view icon is in the upper right corner (Fig C, Fig D, and Fig E).
- Tapping the title image will open the eBook for reading.
